## **Technical Specifications**

| Brand                | Atlas Wire                                                                            |
|----------------------|---------------------------------------------------------------------------------------|
| Item                 | Wire                                                                                  |
| Wire/Cable Type      | MTW                                                                                   |
| UL Wire/Cable Type   | AWM and MTW                                                                           |
| Applicable Standards | UL 758, UL 1015, UL 1230, UL 1032, CSA<br>C22.2 No. 210, UL 1011, UL 1013 and UL 1335 |
| Application          | Hook-up                                                                               |
| Flexibility          | Flexible                                                                              |
| Voltage Rating       | 600V                                                                                  |
| Conductors           | Single conductor                                                                      |

| Conductor Size                    | 20 AWG       |
|-----------------------------------|--------------|
| Conductor Stranding               | 10-stranded  |
| Conductor Material                | Bare copper  |
| Conductor<br>Insulation Material  | PVC          |
| <b>Conductor Insulation Color</b> | Blue         |
| Nominal Overall<br>Cable Diameter | 0.1in        |
| Bulk Length                       | 1000ft spool |
