Technical Specifications

Brand	WenglorTPL
Item	Dome
For Use With	Modular-RING 130mm ring lights
Additional Information	Dome accessory perfectly suited for the 80mm ring light. This accessory can convert the diffuse ring light into a highly homogenous dome light, perfect for illuminating shiny surfaces and inspecting texture changes on surfaces, such as laser engraved code. Thanks to hole aperture adapters, the diameter of the camera hole at the top of the dome can be reduced to minimize dark spots on any highly shiny surfaces. The hole aperture adapters come as standard with any dome accessory. The accessories come with integrated magnetic mounting, so they can be easily attached and removed

Agency Approvals

UL Listed File #	None
UL Recognized File #	None
UL Hazardous File #	None
