| Item                              | Power supply                   |
| Series                            | PSC                            |
| Power Supply Type                 | Switching                      |
| Efficiency                        | 83% @115 VAC and 230 VAC       |
| Output Configuration              | Single output                  |
| Output                            | 12 VDC @ 4.5A/54W (adjustable) |
| Output Voltage Range              | 12-16 VDC                      |
| Input voltage range               | 85-264 VAC                     |
| Number of Input Phases            | 1                              |
| Protection Type(s)                | short circuit overload         |
| Remote On/Off                     | No                             |
| Voltage Monitoring                | Yes                            |
| Enclosure Type                    | Enclosed                       |
| <b>Housing Material</b>           | Plastic                        |
| IP Rating                         | IP20                           |
| Mounting                          | 35mm DIN rail                  |
| Connector Type                    | Screw terminals                |
| NEC Class 2                       | Yes                            |
| Integrated UPS<br>Battery Control | No                             |
| Operating Temperature             | -25 to 60 deg C                |
