

Stripping Tools

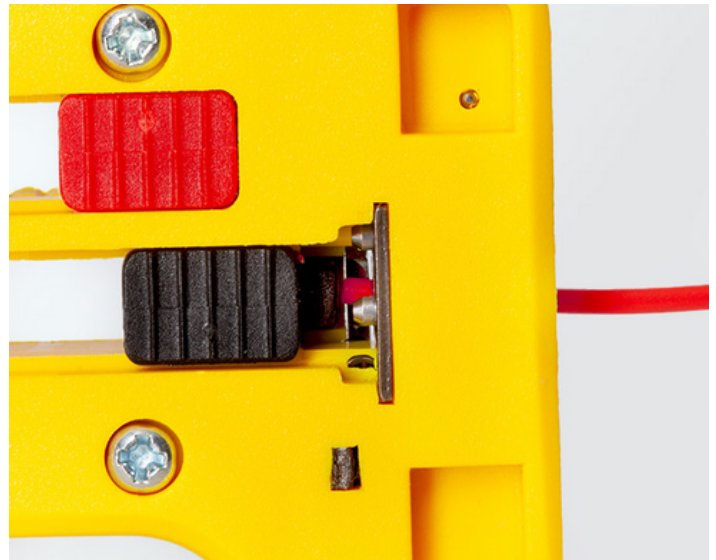

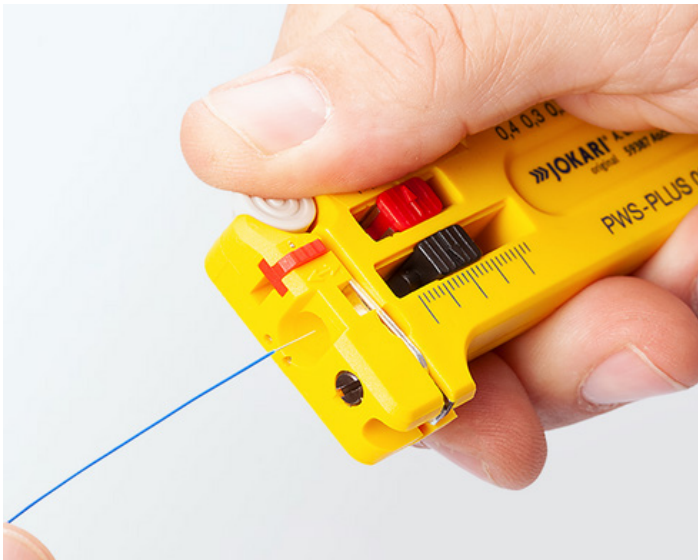

Micro-Precision Fine-Wire Strippers

JOKARI micro-precision strippers handle the finest electronic and telecom wires, down to 0.30mm (0.012in / 28 AWG), with preset positions that strip delicate conductors without nicking.

JT40026 Features

- Micro-precision stripping of fine wire Ø0.30–1.00mm (28–18 AWG)
- Six preset stripping positions for repeatable results
- Integrated side cutter for wire up to 18 AWG
- Adjustable length stop for consistent strip length
- Handles PVC, TEFLON, KYNAR, TEFZEL, and MYLAR insulation
- Lightweight 4.0in [102mm], 35g; made in Germany
