

Screwless One-Connection to Two-Connection Terminal Blocks

Unlike screw terminal blocks, screwless terminal block spring-clamps are designed to clamp a single wire. If your application requires multiple wires to be tied together, we offer multiple versions, including **one-to-two** and **two-to-two** models. These versions allow multiple wires to be connected together by way of multiple spring-clamps. LED and diode variations are also available in this style.

DIN rail

35 mm wide

These quality DIN rails are provided in one-meter lengths and two heights, 7.5 mm and 15 mm. The 7.5 mm-high rails are primarily used to mount terminal blocks, relays, timers and small PLCs such as the DL05, DL06, DL105, DL205, CLICK, and Productivity3000. The 15 mm-high rails are for mounting larger and heavier components such as contactors and larger PLCs.

End Covers & Spacers

Certain end covers can be used with multiple terminal block parts to cover and insulate the open side, or to put more space between adjacent blocks.

Marking Pen – for terminal and wire marking tags

- Permanent
- Smudge-proof
- Waterproof
- Weatherproof
- Lightfast (won't fade)
- Dries in seconds (excellent for left-handed users)
- Dry-safe (pen can be left uncapped for days without drying out)
- Low odor ink

Part#	Description	Pcs/Pkg	Price Each
DN-MP	Indelible black ink marking pen	1	<--->
