PATLITE® Slim Design LED Signal Towers

MES-A and ME-A 25mm Super Slim Signal Towers
 These rust-free aluminum body signal towers are designed to be direct mounted. LED module lenses are clear and change color when activated. The super slim design is ideal for tight spaces.

MPS and MP 30mm Signal Towers
 These LED towers offer superior impact and heat resistance and have an ABS resin main body. They are designed for direct mounting and have a double insulation for enhanced durability and safety.

LR4 40mm Signal Towers
 The LR4 Series feature low maintenance and energy efficiency using LED technology.

LS7 70mm Signal Towers
 The LS7 Series feature a smooth body surface that reduces adhesion of water and dust. There are no exposed screws, shafts or other metals making these signal towers adaptable in many environments. This model is suitable for high pressure and high temperature wash down environments. An available model with a buzzer has a sound frequency that cuts through loud environments.
