

SD Series Non-Fused Load Switches

Features

- High breaking capacity (AC 22A - AC 23A)
- Double break contacts
- High electrical and mechanical endurance
- Resistant to damp heat
- IP20 degree of protection
- 35 mm DIN-rail mountable or screw mountable
- Modular 45mm frame
- SD1 and SD2 series can be locked in 0 position
- Handle with door interlock feature can be locked with up to three padlocks in 0 position
- Wide range of accessories

Overview

The SD1 and SD2 series of non-fused load switches are listed as Manual Motor Controllers and are designed for use in local motor isolation. The SD series of modular load switches are used for breaking of equipment loads up to 600 VAC, at a nominal current ranging from 16 to 125 amps.

These load switches are most commonly used for the following applications:

- Local load switch for motors
- IEC load switch applications outside North America

Listings

- UL 508/cUL File: UL E22669
- IEC/EN File No. 60947/1-3

Selecting Switches According to IEC 947/1-3 Standard		
AC	Use	Application
AC20	No-load making and breaking	Load switch (device without no-load making and breaking capacity)
AC21	Resistive loads including moderate overloads	Switches at installation head or for resistive circuits (heating, lighting, except discharge lamps, etc.)
AC22	Inductive and resistive mixed loads including moderate overloads	Switches in secondary circuits or reactive circuits (capacitor banks, discharge lamps, shunt motors, etc.)
AC23	Loads made of motors or other highly inductive loads	Switches feeding one or several motors or inductive circuits (electric carriers, brake magnet, series motor, etc.)

1. SD1 direct handle load switch
2. SD2 direct handle load switch
3. 4th pole for SD1
4. Grounding pole for SD1
5. Fixed neutral pole for SD1
6. SD1-SD2 auxiliary contact 1NO + 1NC
One auxiliary contact block can be used

7. 4th pole for SD2
8. Grounding pole for SD2

9. Fixed neutral pole for SD2
10. Operating shaft
11. Non-defeatable door interlock handle
12. Emergency door interlock handle

Non-Fused Load Switches - SD1 Series

SD1-032-BR

SD1-032-RR

Our SD1 series non-fused load switches allow breaking of equipment loads up to 600 VAC, at a nominal current range from 16 amps to 40 amps. They are DIN-rail or panel-mountable. A complete line of standard accessories including an optional auxiliary contact (one N.O. and one N.C. contact) is available for this model.

SD1 Series Non-Fused Load Switches						
Part Number	Price	Handle Type	Color	Ampere Rating	Voltage	Interrupt Capacity
SD1-016-BR	\$26.00	Rotary handle	Black	16	600VAC	5 kA
SD1-025-BR	\$26.00			25		
SD1-032-BR	\$26.00			32		
SD1-040-BR	\$28.00			40		
SD1-016-RR	\$26.00	Rotary handle	Red	16	600VAC	5 kA
SD1-025-RR	\$26.00			25		
SD1-032-RR	\$26.00			32		
SD1-040-RR	\$28.00			40		

Note: One auxiliary contact block can be used on the SD series disconnect switch

SD1 Series Non-Fused Load Switches Accessories Selection Guide		
Part Number	Price	Description
SD1-4P	\$12.00	Additional 4th pole for SD1 non-fused load switches; 40A rating
SD1-GP	\$15.00	Ground pole for SD1 non-fused load switches
SD1-NP	\$15.00	Neutral pole for SD1 non-fused load switches
SD1-AUX	\$15.00	Auxiliary contact for SD1 non-fused load switches. One N.O. and one N.C. contact.
SD-CON	\$20.00	Connector, six to eight poles, to connect two non-fused load switches to one remote operator (Use with 200mm max. shaft length.)
SD-S100	\$7.00	Remote operator shaft for 100mm length (purchase handle separately)
SD-S200	\$7.00	Remote operator shaft for 200mm length (purchase handle separately)
SD-S300	\$7.00	Remote operator shaft for 300mm length (purchase handle separately)
SD-HB	\$9.00	Remote black handle, non-defeatable, IP65 when properly installed
SD-HRY	\$9.00	Remote red-yellow handle, non-defeatable, IP65 when properly installed

Note: One auxiliary contact block can be used on the SD series disconnect switch

Non-Fused Load Switches - SD2 Series

Our SD2 Series non-fused load switches allow breaking of equipment loads up to 600 VAC, at a nominal current range from 63 amps to 125 amps. They are DIN-rail or panel-mountable. A complete line of standard accessories including an optional auxiliary contact (one N.O. and one N.C. contact) is available for this model.
