Overview

STAHL's easy-to-connect and user-friendly isolating barriers provide intrinsic safety and galvanic separation between the control system and the field device, insulating the field device from other parts of the system. Their isolating barrier range is easy to use and boasts an impressive range of functions and a long service life.

Features

- · Compact: Dual Channel modules for most functions
- Analog cards are HART capable
- Analog and digital cards are rated for SIL applications
- pac-Bus provides time-saving system for wiring

Benefits of Using the pac-Bus System

- Quick, easy wiring
- · Can be installed on standard DIN rail without tools by simply snapping into place
- · Can be expanded at any time with additional pac-Bus units
- Suitable for industrial environments subject to vibration
