

Relay Output Modules

T1K-08TR \$160.00
T1K-16TR \$261.00

8-point and 16-point, relay output modules

The 8-point relay output module uses a T1K-08B or T1K-08B-1 base, which is purchased separately.

The 16-point Relay output module uses a T1K-16B or T1K-16B-1 base, which is purchased separately.

Specifications	T1K-08TR	T1K-16TR
Outputs per Module	8 normally open	16 normally open
Isolated Commons	2 (4 pts. / common) isolated	4 (4 pts. / common) isolated
Operating Voltage Range	6–240 VAC (47–63) Hz, 6–27 VDC	
Output Voltage Range	5–264 VAC (47–63 Hz), 5–30 VDC min./max.	
Max. Load Current	2A / pt., 8A / common	2A / pt., 6A / common (subject to derating)
Max. Leakage Current	0.1 mA @ 264 VAC	
Max. Inrush Current	6A for 10 ms / pt.; 20A for 10 ms / com.	
Min. Load	5 mA @ 5 VDC	
OFF to ON Response	< 15 ms	
ON to OFF Response	< 10 ms	
Base Power Required	350 mA @ 5VDC	700 mA @ 5 VDC
Status Indicators	Logic side	
Error Status Indications(LEDs)	FU1 ON = fuse 1 blown FU2 ON = fuse 2 blown	FU1/FU2 ON = fuse 1 or 2 blown FU3/FU4 ON = fuse 3 or 4 blown
Fuses (User Replaceable) T1K-FUSE-2	2, (10A, 250V / common) 5 x 20 mm type	4, (10A, 250V / common) 5 x 20 mm type
Weight	110g	200g

Voltage and Load Type	Typical Relay Life (Operations)	
	Load Current	
	1A	2A
24 VDC Resistive	500 K	250 K
24 VDC Solenoid	100 K	50 K
110 VAC Resistive	500 K	250 K
110 VAC Solenoid	200 K	100 K
220 VAC Resistive	350 K	200 K
220 VAC Solenoid	100 K	50 K
