L-Key Tray Sets

Introducing the Wiha 35-Piece Foam Tray Set made with ErgoStar, a mechanism that stores and conveniently organizes all L-Keys. Turning one L-key in the holder makes all other keys turn to the side at the same angle, enabling you to remove the key you need quickly and comfortably. A clamping mechanism in the holder makes sure that the keys cannot fall out, regardless of whether the holder is open or closed. Each hex key consists of premium-quality tool steel and feature a satin finish for corrosion protection. The tips are fit with a chamfered end for smooth fastener engagement with CNC precision-machined tips for reduced cam-out.

Features

- Tray Size: 1/2 drawer (15.5 x 11.0 x 1.5 in)
- Chrome-plated satin finish for corrosion protection
- Sizes marked on the holder for easy identification
- CNC precision machined for reduced cam out
- Ball-end design for fastening and unfastening at an angle of up to 25°
- Each key conveniently locked into place for efficient storage

Clearly labeled sizes for quick identification

ErgoStar mechanism for excellent retention and ease of access

Ball-end design for use at an angle up to 25 degrees

wiha Tray Sets

Tools that work for you

Overview

Wiha modular foam tray sets provide professional-grade tool organization that maximizes efficiency and workspace optimization. Each set is housed in durable laminated tri-layer foam trays designed to fit seamlessly in most toolboxes and pull-out tool drawers. Available in multiple size configurations, these modular trays allow multiple units to fit within a single standard tool drawer—maximizing storage capacity while maintaining easy access to frequently used tools.

The soft foam construction protects tools from damage while custom-fit compartments keep each tool securely in place, preventing movement during transport or storage. High visibility tool callouts are printed directly on each tray, making it easy to identify missing tools at a glance and ensuring every tool returns to its designated location. This systematic organization reduces time spent searching for tools, improves inventory management, and creates a cleaner, more professional workspace. Whether outfitting a new toolbox or upgrading existing storage, Wiha foam tray sets deliver the organization and durability professionals demand.

Features

- Durable laminated tri-layer foam construction
- Hard shell top layer provides impact resistance and easy wipe-clean maintenance
- High visibility tool callouts printed on each tray for quick identification and inventory management
- Custom-fit compartments secure each tool in place and prevent movement during transport
- Modular foam tray system with standardized sizes fits most toolboxes and pull-out tool drawers
- Multiple size configurations available:
 - 1/8 drawer (15.5 x 6.5 x 1.25 in)
 - 1/4 drawer (11.0 x 7.75 x 1.25 in)
 - 1/2 drawer (15.5 x 11.0 x 1.5 in)
 - Full drawer (22.0 X 15.5 X 1.25 in)
- Soft foam protects tools from scratches and damage
- Space-saving design maximizes drawer capacity and accessibility
