Tools that work for you

Ratchet Tray Sets

Wiha Socket and Ratchet Sets combine precision engineering with durable construction for reliable performance across diverse applications. Available in SoftFinish® and Professional Series configurations, these sets are engineered with premium quality tool steel for strength and durability with a chrome-plated satin finish for corrosion protection. Socket options include 6-point and 12-point configurations in 1/4 in, 3/8 in, and 1/2 in drive sizes, featuring radiused corners to prevent fastener head round-off and four-side detent grooves for secure drive engagement. SoftFinish® sets feature ergonomically engineered handles for comfort during extended use, while Professional Series sets offer robust standard construction for demanding applications.

Features

- Ratchet features low-profile design for access to tight and confined spaces
- Built to withstand heavy use and resist wear and corrosion
- Precision 72-tooth ratchet mechanisms allow for a 5- or 6-degree swing arc; ideal for tight spaces
- Includes a variety of ratchet handles and sockets for comprehensive coverage
- Ergonomic SoftFinish® handles reduce hand fatigue and provide a secure, non-slip hold

Clearly labeled sizes for quick identification

Elegant organization with easy-access cutouts

Ratchet Tray Sets						
Part Number	Number of Pieces	Part Image	Return Angle	Measurement Type	Set Includes	Price
WT33388	9		5 degrees	N/A	(3) reversible ratchets with SoftFinish handles (1/4 in, 3/8 in, 1/2 in), (2) 1/4 in drive extensions (3 in, 6 in), (2) 3/8 in drive extensions (3 in, 6 in), (2) 1/2 in drive extensions (3 in, 6 in), (1) 1/8th drawer foam tray (15.5 x 6.5 x 1.25 in)	\$110.00

wiha Tray Sets

Tools that work for you

Overview

Wiha modular foam tray sets provide professional-grade tool organization that maximizes efficiency and workspace optimization. Each set is housed in durable laminated tri-layer foam trays designed to fit seamlessly in most toolboxes and pull-out tool drawers. Available in multiple size configurations, these modular trays allow multiple units to fit within a single standard tool drawer—maximizing storage capacity while maintaining easy access to frequently used tools.

The soft foam construction protects tools from damage while custom-fit compartments keep each tool securely in place, preventing movement during transport or storage. High visibility tool callouts are printed directly on each tray, making it easy to identify missing tools at a glance and ensuring every tool returns to its designated location. This systematic organization reduces time spent searching for tools, improves inventory management, and creates a cleaner, more professional workspace. Whether outfitting a new toolbox or upgrading existing storage, Wiha foam tray sets deliver the organization and durability professionals demand.

Features

- Durable laminated tri-layer foam construction
- Hard shell top layer provides impact resistance and easy wipe-clean maintenance
- High visibility tool callouts printed on each tray for quick identification and inventory management
- Custom-fit compartments secure each tool in place and prevent movement during transport
- Modular foam tray system with standardized sizes fits most toolboxes and pull-out tool drawers
- Multiple size configurations available:
 - 1/8 drawer (15.5 x 6.5 x 1.25 in)
 - 1/4 drawer (11.0 x 7.75 x 1.25 in)
 - 1/2 drawer (15.5 x 11.0 x 1.5 in)
 - Full drawer (22.0 X 15.5 X 1.25 in)
- Soft foam protects tools from scratches and damage
- Space-saving design maximizes drawer capacity and accessibility
