Split Head Mallet Set

Wiha split head mallets feature rugged malleable cast iron heads with a heavy-duty, non-slip hickory handle. Mallet faces are removable, and standard options include: TPE Soft, Latex Rubber MedSoft, Polyurethane MedHard, Cell Acetate Hard, and a Nylon Extra Hard. These mallets are ideal for construction, woodworking, automotive applications along with many more.

Features

- Rugged malleable cast iron heads
- Five head diameters: 1.2 in to 3.1 in
- Safety-ribbed housings for handle and faces
- Carefully crafted hickory handle with non-slip surface
- Multi-use mallet: made for construction, woodworking, automotive applications, and more

Blue: Soft

Red: Hard

White: Extra Hard

Black: Medium Soft

Yellow: Medium Hard

Dead Blow Hammers

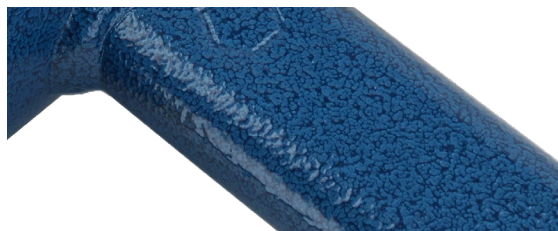

The Wiha Dead Blow Hammer series features durable tool steel construction with replaceable faces for extended tool life. Available in individual 49 oz and 72 oz models with 2.0 in and 2.3 in faces respectively, or as a complete 3-piece set including 30 mm, 40 mm, and 50 mm sizes. The dead blow design minimizes rebound and surface damage while delivering maximum striking force. These hammers are ideal for automotive work, metal fabrication, assembly applications, and general maintenance tasks.

Features

- Available individually or as a 3-piece set
- Durable tool steel construction for long-lasting performance
- Replaceable faces extend tool life and reduce replacement costs
- Dead blow design minimizes rebound and surface damage
- Precision-balanced weight distribution for controlled strikes
- Multi-use hammer: made for automotive work, metal fabrication, assembly applications and general maintenance
