

Non-Contact Voltage Tester

Non-contact voltage testers are essential tools for safe and accurate electrical testing. Designed for all workspaces, this durable device detects voltages up to 1000 VAC in high-voltage environments. With a bright LED display for clear readings and an ergonomic grip for comfortable handling, it's perfect for any job. Safety features include overload protection. Compact and portable, this voltage detector is a reliable companion for your electrical projects, ensuring peace of mind in every use

Features

- LED In plastic tip illuminates red and emits audible warning as soon as AC voltage is detected
- Simply hold voltage detector adjacent to any terminal or LED along an isolated cable using the plastic tip
- Detects AC voltages between 50 and 1000 V with the precise proximity sensor
- Lightweight and easy to carry around your workspace

| Voltage Tester | | | | | |
|----------------|--|---------|--------------|---------|--|
| Part Number | Description | Price | Weight (lbs) | Qty/Pkg | |
| <u>WT25505</u> | Wiha voltage tester, non-contact AC voltage detection, CAT IV 1000V. | \$28.00 | 0.19 | 1 | |

| Voltage Tester Specifications | | | |
|-------------------------------|------------------------------|--|--|
| Model # | <u>WT25505</u> | | |
| Safety Rating | CAT IV 1000V | | |
| Voltage Measurement Range | 50-1000 VAC | | |
| NCV* Detection Range | 50-1000 VAC | | |
| On/Off Button | No | | |
| Low Batt Self Test | No | | |
| Auto Power Off | Yes | | |
| Power | Two AAA batteries (included) | | |
