

Wrench Tray Sets

Wiha Combination Wrench Tray Sets feature a 12-point box-end design with contact points that apply force to the flat sides of the fastener head—rather than the corners—to prevent rounding off. The open-end is angled 15 degrees for flipping the wrench between rotations to maximize efficiency, and the box-end offset 15 degrees for finger clearance and working around obstructions. Constructed from premium quality tool steel with a chrome-plated satin finish for corrosion protection, each wrench features boldly stamped size profiles for easy identification. The tools come conveniently stored in a soft modular foam tray with high visibility tool callouts for secure, space-saving storage. Wiha modular foam trays are made of durable laminated tri-layer foam and will fit in most toolboxes and pull-out tool drawers.

Features

- Tray size: Full drawer (22.0 X 15.5 X 1.25 In)
- 12-point box-end with 15-degree offset for better clearance
- Open-end angled 15 degrees for quick and easy flipping between rotations
- Chrome-plated satin finish for corrosion protection
- Premium quality tool steel for strength and durability
- Durable tri-layer laminated foam with custom-fit labeled compartments
- Available in ratcheting and non-ratcheting sets

Clearly labeled sizes for quick identification

Elegant organization with easy-access cutouts

Overview

Wiha modular foam tray sets provide professional-grade tool organization that maximizes efficiency and workspace optimization. Each set is housed in durable laminated tri-layer foam trays designed to fit seamlessly in most toolboxes and pull-out tool drawers. Available in multiple size configurations, these modular trays allow multiple units to fit within a single standard tool drawer—maximizing storage capacity while maintaining easy access to frequently used tools.

The soft foam construction protects tools from damage while custom-fit compartments keep each tool securely in place, preventing movement during transport or storage. High visibility tool callouts are printed directly on each tray, making it easy to identify missing tools at a glance and ensuring every tool returns to its designated location. This systematic organization reduces time spent searching for tools, improves inventory management, and creates a cleaner, more professional workspace. Whether outfitting a new toolbox or upgrading existing storage, Wiha foam tray sets deliver the organization and durability professionals demand.

Features

- Durable laminated tri-layer foam construction
- Hard shell top layer provides impact resistance and easy wipe-clean maintenance
- High visibility tool callouts printed on each tray for quick identification and inventory management
- Custom-fit compartments secure each tool in place and prevent movement during transport
- Modular foam tray system with standardized sizes fits most toolboxes and pull-out tool drawers
- Multiple size configurations available:
 - 1/8 drawer (15.5 x 6.5 x 1.25 in)
- 1/4 drawer (11.0 x 7.75 x 1.25 in)
- 1/2 drawer (15.5 x 11.0 x 1.5 in)
- Full drawer (22.0 X 15.5 X 1.25 in)
- Soft foam protects tools from scratches and damage
- Space-saving design maximizes drawer capacity and accessibility
