### (B) **IBOCO**<sup>•</sup> Wire Duct – Slotted

### Rigid PVC - Open Slot - Wide Finger Wall T1 Series

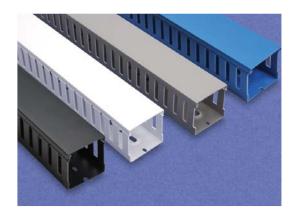

#### **Overview**

Rugged wire duct is made of rigid PVC that carries a UL 94V-0 flammability rating for your wire containment needs. Our wire duct comes in 6.56 ft [2m] or 3.28 ft [1m] lengths, complete with cover. Replacement duct covers can be purchased separately.

#### **Features**

- Standard mounting holes
- Wide finger design provides greater rigidity and larger slot width
- Rounded, burr-free edges will not cut installers' hands or wiring insulation
- Non-slip cover included
- Flush cover design holds 10–12% more wires than traditional designs
- Restricted slot design for fast and easy wire installation/removals
- Temperature range -15 to 50°C [5 to 122°F]
- Available in 6.56 ft [2m] or 3.28 ft [1m] lengths

- Two predetermined break lines, one for breaking off and removing the sidewall finger segments only, and another for removing the sidewall finger and base segments
- Rivets R6 and R4 may be used to mount on panel
- Recess bosses in the base allow rapid mounting of wire retainers (CL series), inserts (ZP2) and separators (SEP series) inside the wire duct.
- Duct base perforation according to DIN 43659 and DIN VDE 0660 TEIL 506

UL Recognized file # E123572

### **Duct Separators**

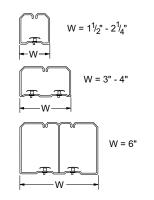

Duct separators allow the physical separation of circuits within a single piece of duct. The various mounting arrangements allow alternate compartmentalization of duct and differing ratios of usable sections.

### Wire Retainers

For holding wires during wiring operations, these retainers are essential. They allow easy access to the interior of the wire duct during maintenance or alterations, while assuring that wiring bundles will not fall out when the duct cover is removed. Installed with a simple rotating movement, they anchor firmly in the recess boss in the duct base.

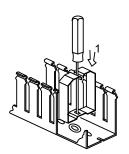

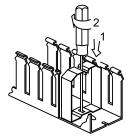

Duct Separators

### (BIBOCO) Wire Duct – Accessories

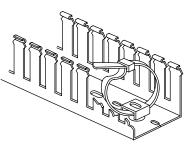

Duct Marking Tags					
Part Number	Price	Description	Qty		
<u>DM1</u>	\$32.00	Single-width white cardboard identification label for wire duct. Supplied with black plastic mounting clip and transparent plastic cover slide	50		

Note: DM1 marking tags can only be used with T1 series wire duct.

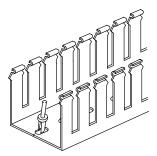

Mounting Devices						
Part Number Price Description Qty						
<u>ZP1</u>	\$17.00	Round, white polyamide 'button' used to mount components and separators inside duct.	100			
<u>ZP2</u>	\$20.50	Square white polyamide cable tie mount used to tighten a wire bundle inside duct.	50			

Wire Duct Rivets and Rivet Tools									
Part Number	Price	Description	Qty						
<u>R4*</u>	\$19.50	Blue polyamide rivet used to install all types of wire duct with standard 4.5 mm [0.17 in] mounting holes.	250						
<u>B4</u>	\$51.00	Red polyamide rivet tool used to install R4 rivets.	1						
<u>R6*</u>	\$22.50	Natural polyamide rivet used to install all types of wire duct with standard 6.5 mm [0.26 in] mounting holes.	250						
<u>B6</u>	\$51.00	Yellow polyamide rivet tool used to install R6 rivets.	1						

\* R4 drill hole size - 5/32" (4mm), R6 drill hole size - 7/32" [5.5 mm] When using with Flexible wire duct, only the R4 rivet will currently work.

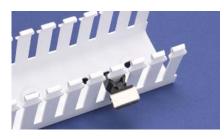

www.automationdirect.com

### **Identification Tags**

Allowing easy identification of control gear and switchgear, these tags are mounted by snapping the clip onto the sidewall finger segments of the duct. No gluing - no drilling! After installation, they need not be removed during maintenance or any work which involves the removal of the covers.

Note: Take care that clip is installed above the wires coming out to the sidewall slots.

### **Mounting Inserts**

We carry mounts in two styles: ZP1 for mounting components and SEP-E separators inside duct, or for mounting small sizes of duct inside larger sizes (for separation of circuits with different functions); and ZP2, which is used with a cable tie to secure a wire bundle inside the duct.

### **Rivets and Rivet Tools**

Wire duct rivets install quickly and easily with the companion rivet tool, offering good temperature resistance and excellent mechanical properties. They can be used to install all types of wire duct with standard mounting holes.
